

be **AGILE**

A Company Built on Results

At SupraITS, we develop custom application and software solutions for fixed-price projects that generate value and streamline business resources so you can move faster, easier and drive your business forward.

At the forefront of technology since 2001, we employ high-caliber professionals in Canada and India, use the tools and technologies that best suit each client and their customers, and work across dozens of industries throughout North America and Asia.

LOCAL FOCUS FROM A GLOBAL NETWORK

EMPOWER YOUR BUSINESS WITH CUSTOM APPLICATIONS.

SMBs constantly strive to increase productivity, create new efficiencies and drive down costs. SupraITS designs and builds custom applications that do precisely that.

We understand that business goals and the market places they operate in are often moving targets. How fast you move matters. Agility counts. With global positioning that supports a 24/7 operation, our clients enjoy affordable, fast-to-market business solutions that boost the bottom line.

From planning and design to implementation, testing and deployment, and with expertise spanning Microsoft, Java, Lamp Stack, MSSQL and Web 2.0 technologies, we're a company built on our client's results.

SOLUTIONS Innovation & Scalability

Our mantra: *Be flexible. Be scalable. Innovate.* It defines our strategy, and it's what separates our solutions from the pack.

- Association Management
- Content Management Systems
- DBMS Design and Architecture
- Document Management Systems
- Enterprise Resource Planning
- Legacy Migration
- Portals (SaaS, Web, SharePoint)
- Web Design & Development

Delivering business results takes more than a good pitch. It's about real tangible assets, infrastructure, experience and expertise.

SupraITS has continually invested in all of the above – which means you don't have to.

- **REPORTING TOOLS**
Crystal Reports
- **VERSION CONTROL**
Visual Source Safe
- **WEB SERVER/APPLICATION**
Microsoft IIS, Apache Web Server, Jakarta Tomcat Web Server

Systems Success in 9 Steps

SERVICES What We Do For You

From our core teams and network of international partners, we build solutions based on specialized knowledge, experience and a global perspective. Here's how we can help your business.

 <p>APPLICATION RE-ENGINEERING</p> <p>Modern business demands constant improvement. We have on-board experience and expertise to re-engineer legacy systems (from planning to execution and roll-out support) – a cost-effective route to improve productivity and maximize ROI.</p>	 <p>CONSULTATION</p> <p>Come to us with a business challenge and measure us by our response. With innovative thinking, fast and cost-effective production, our consulting services keep business-critical projects on target, on track and on budget.</p>	 <p>CUSTOM APPLICATION DEVELOPMENT</p> <p>We listen. We learn. Then we put the best people and technologies to work. We develop custom applications that deliver new operational efficiencies, cost savings and ROI.</p>	 <p>MANAGED APPLICATIONS SERVICES</p> <p>Reduce IT costs, manage non-strategic IT spending and improve business agility with an end-to-end Managed Application Service that provides the expertise and skills to help you build, run and evolve your enterprise applications.</p>	 <p>MOBILE APPS</p> <p>Designed using future-facing architecture, following the latest mobile standards such as Android, Apple and Windows, our strategies, processes and products are at once iterative and interactive.</p>	 <p>ONSITE, ONSHORE, OFFSHORE</p> <p>Smartsourcing (some call it 'outsourcing') is practical and cost-effective. We provide comprehensive, specialized expertise and multi-site engagement options around the clock, with global centers of excellence in Canada and Asia.</p>	 <p>PORTALS</p> <p>We help businesses save time and energy, and focus on their core business using Portal services as Software as a Service (SaaS) or "on-demand software" as a delivery model. Software and associated data is centrally hosted in the cloud.</p>	 <p>PROJECT MANAGEMENT</p> <p>With 'fixed price' or 'time + material' options, we have multi-disciplinary expertise including security, application development, database design, data mining, graphic and UI design, content management, technical communication and more.</p>
