

be SMART

Fresh Ideas and Enterprise Thinking Drives a New Approach to Printing.

By focusing on the details, PrinterLogix creates Managed Print Solutions that produce beautifully efficient big pictures. We understand what really drives the total cost of printing across your organization, and we know how to make it better.

We can recommend and deploy best-fit processes, hardware, software and consumables plans that give greater control and reduce print expenditure.

Our approach is not standard because innovation must go beyond the expected.

It starts with how we think.

HOLD THE REVOLUTION

Even with the best intentions, the vision of a paperless world is far from reality. For the businesses of today and tomorrow, we recommend and deploy best-fit processes, hardware and software recommendations and consumables plans that give greater control and reduce print expenditure.

You don't have to print less. You have to print smart.

MANAGED PRINT SERVICES

Mps360 is our managed print solution with an honest streak, creating tangible, transparent value for your business while reducing print-related energy, time, budget and environmental impact.

We focus on solutions for SMBs (500–3000 employees) because it's where we can make the biggest difference. (And it's also where the biggest inefficiencies are hiding).

Making sense of Multifunction

Consolidate and conserve – the keys to efficiency. The all-in-one printer become an affordable catalyst for efficiencies across a range of cost. Our holistic, integrated approach may not be revolutionary, but we believe that by shaping evolution, a better future exists for us all.

Green is good

The environment and the printing business are learning to get along, but it's not without challenges. Everybody wants to go green, but nobody wants to pay for it. So what gives?

OUR PROMISE

USE THE LATEST TECHNOLOGY

It's practical and financially efficient.

SERVICE LEVEL AGREEMENTS (SLAs)

That's how you back up the promise of exceptional service.

YOUR BOTTOM LINE COUNTS

Our success comes from real business results.

AUTO DUPLEX

Save money, the environment – it's just common sense.

Improving the Print Environment: a Four Step Plan

¹ ANALYSE

We'll see how your business works, watching the full document life-cycle from creation to archiving.
